About us

Your Partner for IT Innovation

Founded in 2018 in Kenya, RENGA Technologies has rapidly expanded its footprint to Uganda, Rwanda, DRC, Bangladesh, and Nepal within a short period of time. Our core focus areas include Consulting, Mobility and Digital Transformation, Software Development, IT Infrastructure, and IT Security.

What sets us apart is our seasoned team of experts with 20+ years of industry experience across various sectors and regions. We've also established an offshore Software Development Centre in India, specializing in cutting-edge technologies like Open Source, AI, and Blockchain.

At RENGA, our mission is simple: to use technology to address your business priorities and drive transformation, helping you surpass your competition. Join us in reshaping the future of your business with RENGA Technologies.

What we do

We Innovate IT Solutions

Leveraging our international expertise harmoniously combined with deep-rooted African insights, we pioneer innovative IT solutions that set us apart, providing a compelling and competitive edge in the market.

Our focus is to address customer challenges through technology, and provide them with a long-lasting solution. This helps the customer achieve their goals and move ahead of competition.
